Campus Counts
The Premier Campus Safety Management System

Personal injuries ...Mental health issues… Sexual misconduct… Parental Involvement… Off-campus incidents… Behavioral Intervention… Strange injuries... High risk students… High risk locations… Today's students bring with them ever-more complex problems, and student affairs units are expected to manage them. Campus Counts manages all types of incidents and events in a high school, college or a university setting.
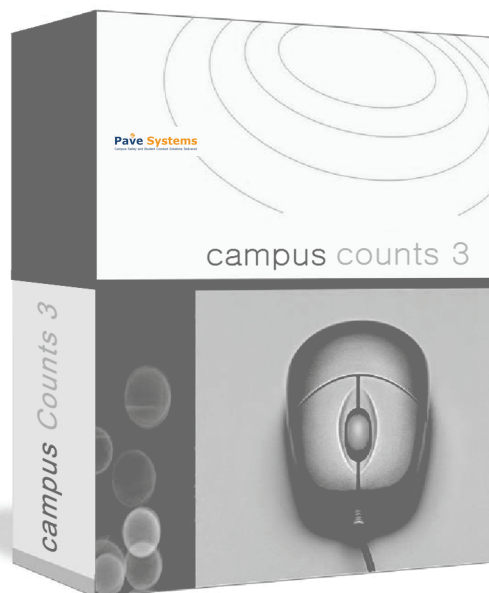

Proven Leadership and Innovation

- Campus Counts manages all types of concerning events: health and injury, sexual issues, personal problems, location-based problems, and more… You create the definitions!

- Campus Counts is the product of choice for leading professionals worldwide. It is cost effective, innovative and proven useful by hundreds of clients at high schools, colleges and universities worldwide.

- Campus Counts brings together all stakeholders: faculty, police, heath & counseling, residence life, state and federal agencies and even parents. You create the rules and invite who you want!

Communication, Reporting and Compliance

- Early warning system for faculty, health services, police and academic departments among other stakeholders.

- Identification, tracking and management of high risk students.

- Identification and tracking of high risk locations.

- Trend-analysis and flexible reporting system for general and customized reports

- Enables compliance with federal laws including FERPA, DFSC and Campus Fire Safety Act.

- Personalized and customized access for each user by all types of users inside and outside your campus.

- Access is provided over the web using any browser or any mobile device.

Pave Systems is focused on the customer

With all Pave Systems products, you can rely on superior support 24 hours a day. You can call us, write us, or visit our award winning Knowledge Sharing Center to get exactly the assistance or training you need. Our customer service is second to none.

SECURE HOSTING

We provide both hosted and non-hosted solutions. If you select Pave Systems to host and serve your applications, you can be assured that our company-owned, state-of-the-art data-center is the most secure outfitted with the latest in security and recovery technology. We never outsource or rely on fourth-party hosting services.

INSTALLATION & TRAINING

Installation takes days, not months and guarantee a go live date in writing. We have no hidden fees or interface fees. Training is provided by dedicated and experience trainers in a personalized manner. Training is provided as often as needed and for free – we call it *Training for Life!*

For more information on any of our products or services please contact us at 972.907.2221 or visit our website www.pavesystems.com
