Campus Counts™:

The premier and most trusted campus safety management system for high schools, colleges and universities worldwide

- Manages any/all incident types (mental, behavioral, academic, personal, medical and any other incident types related to students inside or outside your campus)
- Identifies high risk students (i.e, sex offenders, multiple drug users, persons of interest, behaviorally threatening students among others)
- Early warning system for faculty, health professionals, police, academic departments and other key stakeholders inside and outside your campus
- Identifies high risk locations (i.e. floods, fire, false fire alarms, re-occurring maintenance issues)
- Threat assessment and crisis intervention management tools bringing key stakeholders from different departments and the community
- Enables compliance with the federal laws including FERPA, NIMS the Campus Fire Safety Act and the DFSC Act.

JA Mobile™:

A market first, JA Mobile is user-friendly, interactive and device-agnostic. Innovative and cost effective, JA Mobile minimizes date entry and delivers personalized experiences. No matter your role, JA Mobile makes your work easier, more productive and more flexible.

- Create incident reports
- Instant view student conduct history
- Record hearings seamlessly
- Send notification emails, GPS Mapping and much more …

Diversified:

Pave Systems is a diversified technology company that provides a full set of technical products and services to clients worldwide.

- We partner with our clients on any custom system development. This covers a wide variety of system development from Mobile applications to Java, .NET and Oracle development.
- Specialized services including hosting and managed services, continuity and risk assessment, security, backup and quality assurance services.
